

# CANADA CREDIT CARD LOADING BY BLCKLGS.IO

## INTRODUCTION

Now I have already taught you guys how to run credit card top up for USA credit cards, but the question I am always asked is;

“How can I cash out from this card??”

The truth is; there are So many credit card frauds in USA so a USA cc can have money but still get declined for no reason at all.

That is why today we will talk about Canada cc, because no matter where you are in this world, you can use a Canada cc with a lot of money in it to send Western Union or World Remit to yourself in Africa or Asia, you can use it to card many things online with less declines as far as there is enough money on the card (and your IP isn't weak).

Most Online shops which sell live Canada and European cc sell either empty or low balance credit cards cos they know it hard to verify cc balance without killing it.

So, the tutorial today will teach you how to easily load a lot of money into these cc u buy so you can cash out either by WESTERN Union or World Remit or to use for buying Online gadgets or anything

If your Canada client also owns the card, she can walk to atm or bank to withdraw the cash...

## **CANADA CREDIT CARD LOADING**

Many of you will ask where you can get a credit card to buy, since Unicc and Feshop are down, I will post a list of shops to get them at the end of the tutorial, so sit tight and read on.

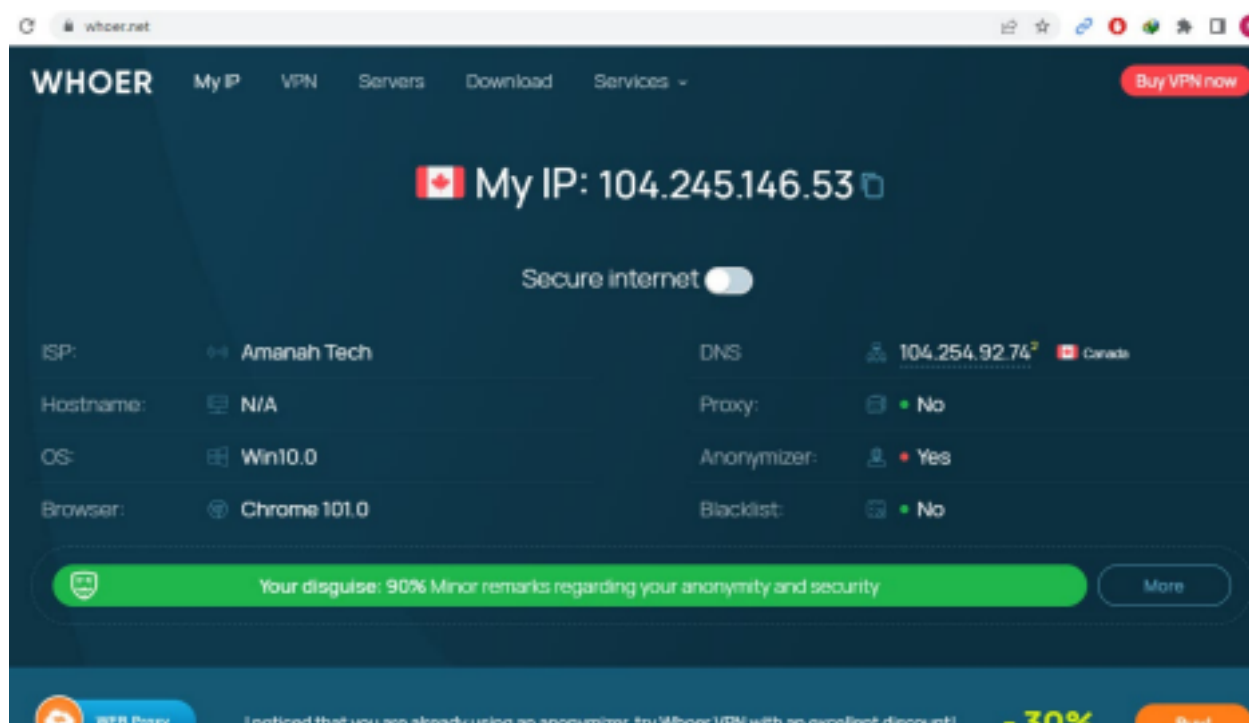

## **CANADA CREDIT CARD LOADING METHOD**

1. The first most important thing to do is to change your IP location to Canada. 911 socks or Canada RDP is good for this, however if you don't have money for that, just download WINDSCRIBE VPN and connect to Canada (it free and strong too).

## **CANADA CREDIT CARD LOADING 2. After**

connecting to the Canada location. Go to

Whoer.net to make sure your location is where you want it to be.

## **CANADA CREDIT CARD LOADING**

3. Now collect the Canada credit card info from your Canada client/whitehead, if you don't have that too, you can just go to any Online shop which sells Canada cc and buy any card.

## CANADA CREDIT CARD LOADING

4. Now buy a hacked Canada bank log (this is where the money will be withdrawn from to be put into the card). Make sure you buy a bank account balance/money. Log into it.

The screenshot shows the Interior Savings Credit Union online banking interface. The user is logged in as Wendy K Cole. The page displays a sidebar with navigation options like 'My Accounts', 'Messages', 'Accounts Summary', 'Transfers', and 'Account Services'. The main content area shows the 'Accounts Summary' for Wendy K Cole, listing several accounts with their balances. A 'Member Service Centre' section is also visible with a phone icon and the number 1-855-220-2580. A 'Save 20% on TurboTax Online' banner is present on the left.

Account	Balance	Action
<a href="#">Chequing Wendy 100</a>	\$62,799.26	<a href="#">-</a>
<a href="#">Plan 24 Wendy 203</a>	\$299.46	<a href="#">-</a>
<a href="#">Member Rewards Wendy 201</a>	\$0.00	<a href="#">-</a>
<a href="#">Member Shares Wendy 202</a>	\$8.25	<a href="#">-</a>
<a href="#">Tax Free Investment 205</a>	\$1,888.65	<a href="#">-</a>

You can buy TD Canada bank. RBC Bank, Interior Savings Bank, CIBC etc, as far as the bank got balance in it, you can use it for this method and all Canada banks have the same features so they pretty the same method to follow.

## CANADA CREDIT CARD LOADING 5. Click on Payments.

The screenshot shows the Interior Savings Credit Union online banking interface. The browser address bar displays `online.interiorsavings.com/OnlineBanking/Accounts/`. The page header includes the Interior Savings logo and navigation links: Personal, Business, About Us, Rates, Careers, and Contact Us. A search icon and a location pin icon are also present, along with a **LOGOUT** button.

The main content area is titled "You are here: Online Banking » My Accounts". The left-hand navigation menu includes the following links: My Accounts, View Account Activity, Rename Accounts, View e-Statements, View e-Documents, View Cheque Images, **Payments** (highlighted with a green arrow), Transfers, Account Services, Messages and Alerts, and Profile and Preferences. Below the menu is a blue banner for TurboTax with the text "Save 20% on TurboTax Online".

The main content area is divided into three sections: Messages, Accounts Summary, and a Welcome message. The Messages section states "You have no new messages." The Accounts Summary section is titled "Interior Savings Credit Union Accounts" and shows a table of accounts. The Welcome message section displays the user's name, login date, and scheduled bill payments.

Account	Balance	Action
<a href="#">Chenulua Wendy 100</a>	\$62,780.26	
<a href="#">Plan 24 Wendy 203</a>	\$269.46	
<a href="#">Member Rewards Wendy 201</a>	\$0.00	
<a href="#">Member Shares Wendy 202</a>	\$8.25	
<a href="#">Tax Free Investment 205</a>	\$1,688.65

If you know the limit of the credit card, you can load the current balance / the amount the card owes below the limit.

However, if it is a credit card you bought online and you don't know the limit, don't load it more than \$5k (between \$2k and \$5k is okay), If the real limit of the cc u bought online is \$2k and u loaded \$5k, the \$1k will still reflect on the card and

## CANADA CREDIT CARD LOADING

extra \$4k will turn into debt later on for the owner's account (we don't care about what happens to his account tho)

## CANADA CREDIT CARD LOADING

17. For the purpose of this tutorial, I decided to load a credit card with online access so I could show proof of the tutorial working, so below is the Canada capital one credit card BEFORE I LOADED IT.

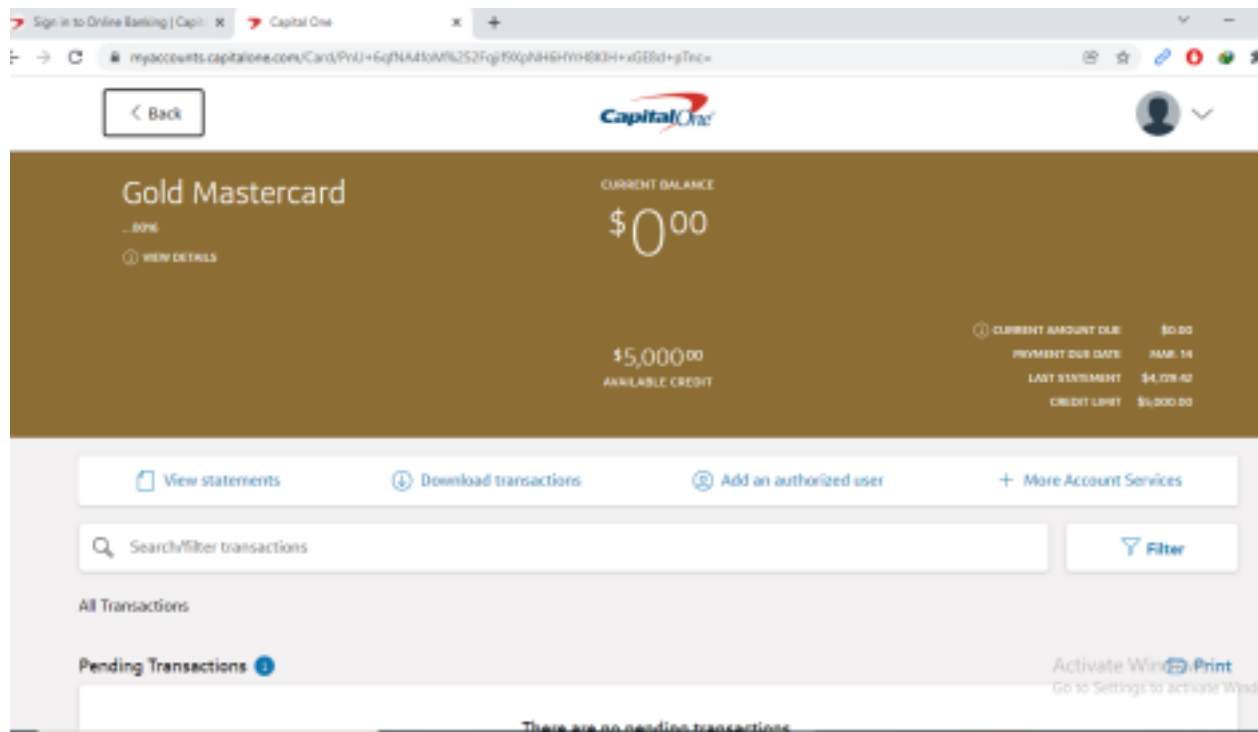

Available Credit is the amount of money available on the credit card which you can withdraw/use for purchases.

Current balance is the debt or balance on the card which should be paid, once it paid, it is moved to available credit as funds on the card.

## **CANADA CREDIT CARD LOADING**

18. So below is the Canada capital one credit card  
AFTER I LOADED IT.

This card now has \$5k on it which I can do whatever I want on it.

## CANADA CREDIT CARD LOADING

19. The amount of money I sent from the hacked bank log is what is shown in the transaction history of the credit card.

You don't need the online login of the credit card you are about to load; all you need is the credit card number and the money will be reflected in exactly 2 DAYS!!!...
