NOW LET START!!!...

HOW TO BUY BTC WITH CREDIT CARDS

METHOD:

1. First get a verified **Moonpay** account. You can buy Moonpay account on blcklgs.io
2. Then buy a high balance credit card.
(will post shops to get them at the end of the tutorials.)
3. Go to
<https://purchasealerts.visa.com/vca/web/check> to check if the card is eligible

for visa alerts.

4. If it's eligible then create a visa purchase account and add cc into it. Then you'll get all alerts on email.
5. Now anytime you make a purchase with this card, they will send alert to your personal email which you added to the visa alert site.

6. Now go back to the Moonpay account, add the cc u just purchased. They will send micro deposit amount like \$0.xx into the cc and ask you to verify it.

7. You will get an email alert telling you the amount which was sent.

8. Go back to Moonpay account; write the amount there to verify. And you can now buy any amount of btc you want to buy, depending on the credit card balance. Thank YOU.
