

COMPLETE ZELLE TRANSFER

TUTORIALS INTRODUCTION

By the time you are done reading this complete tutorials, you will know how to run a zelle bank transfer job without anyone's help.

Zelle transfer is basically the process of sending money from one bank account (hacked bank with money) to another account (client/picker/receiver/bank drop) and the money reflecting instantly.

You also don't need the online logins of the bank drop since many people are scared to share the logins of their account with others, and the money reflect instantly!!!!...

METHOD

1. Log into the hacked bank log you bought from Shop or spammer or hacker or whatever. You can buy bank logs here <https://blcklgs.io/>

6. Choose where you want to send the money from, always wise to select the account with money.

The screenshot shows the 'Send Money with Zelle' interface. At the top is a green navigation bar with five tabs: 'Accounts Overview', 'Debit & Credit Cards', 'Payments & Transfers', 'Tools & Resources', and 'Statements & Tax Docs'. Below the navigation bar is a white header area with the title 'Send Money with Zelle®'. The main content area has a heading 'You need an account to send and receive money with.' followed by the instruction 'Choose a primary account. ⓘ'. There are two radio button options: the first is selected (filled black circle) and labeled 'Savings #0000027475', and the second is unselected (empty white circle) and labeled 'Green #0000037483'. At the bottom of the form is a purple 'CONTINUE' button.

7. Zelle has been activated. Time to make some money 😊 . click on Send Money.
