Bill Pay

The cut-off time to submit Bill Pay payments is 8:00 p.m. ET on business days.

When you enter a payment prior to 8:00 p.m. ET, the money will be withdrawn from your account on the date the payment is scheduled and sent to your payee on that date. Payments entered after 8:00 p.m. ET on business days—or entered on weekends or federal holidays—will be sent to your payee the following business day, or on the date the payment is scheduled.

It can take 2 or 5 business days for your payment to be received by your payee, depending on the method of delivery. The "Deliver By" date helps you plan for this lag time in the sending and receiving of your payment.

Auto Loan, Personal Loan, or Line of Credit

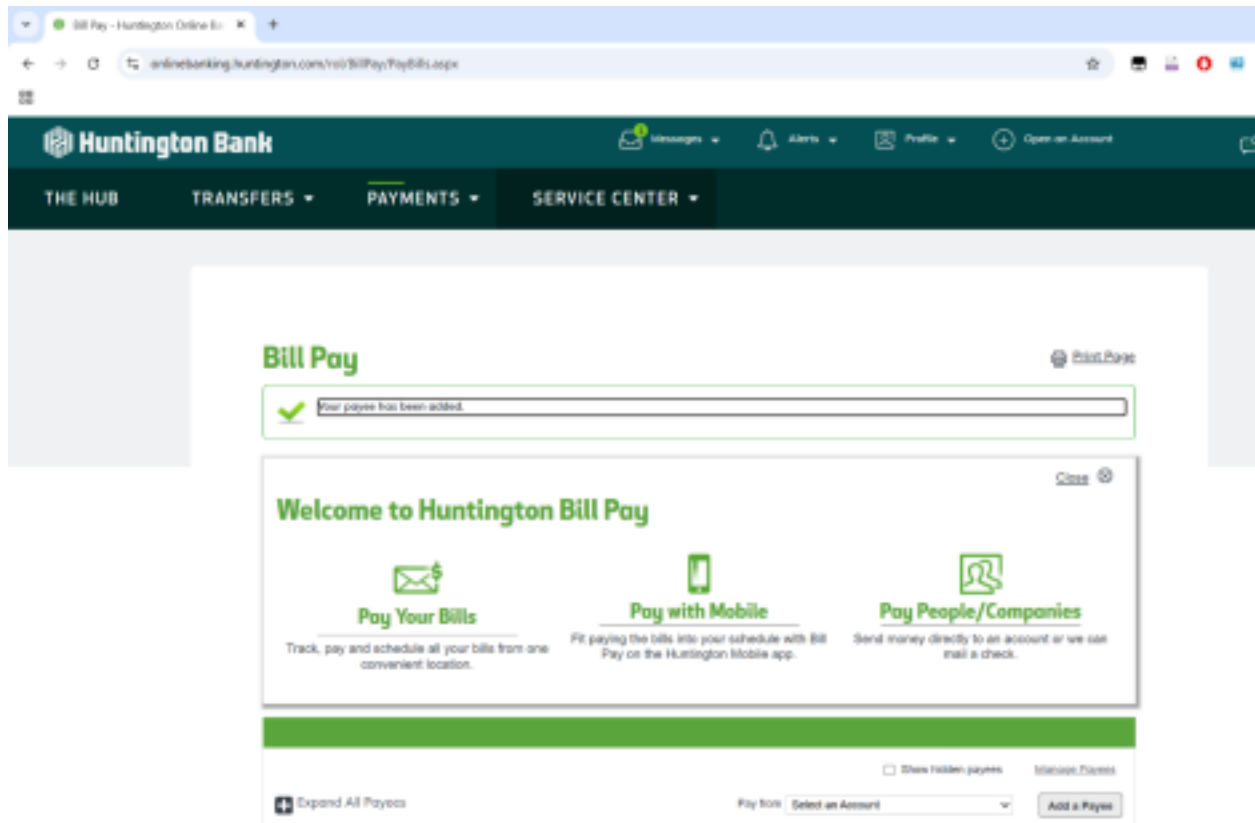

Payments to a Huntington auto loan, personal loan, or line of credit before 8:00 p.m. ET on a business day will be credited to the account as of that day. Payments made on a weekend or federal holiday are credited on the following business day. Payments scheduled on a future date may be edited or canceled before 8:00 p.m. ET on that date.

Credit Card

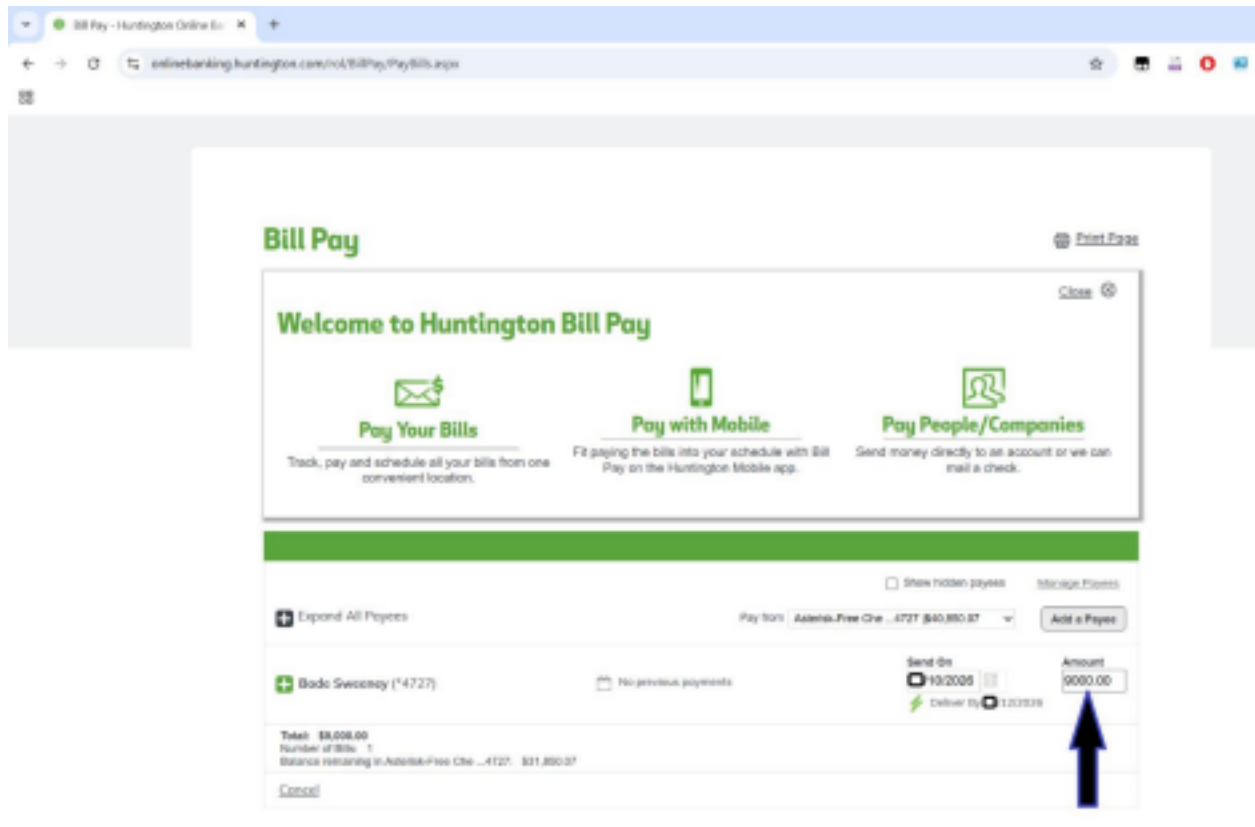

Huntington credit card payments are applied same day. Allow up to 2 business days for your payment to display.

5. PAYEE has been added.

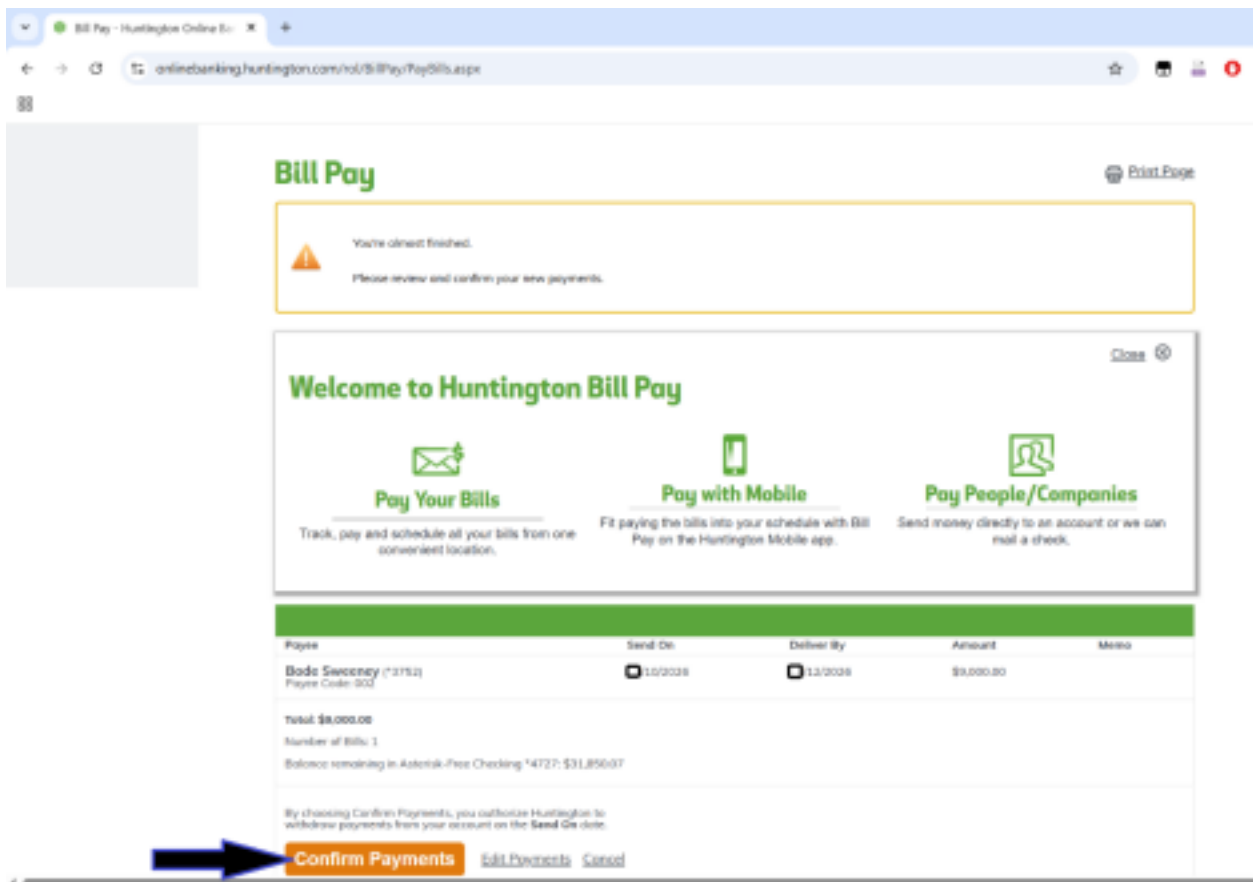

Now it's time to send the money.

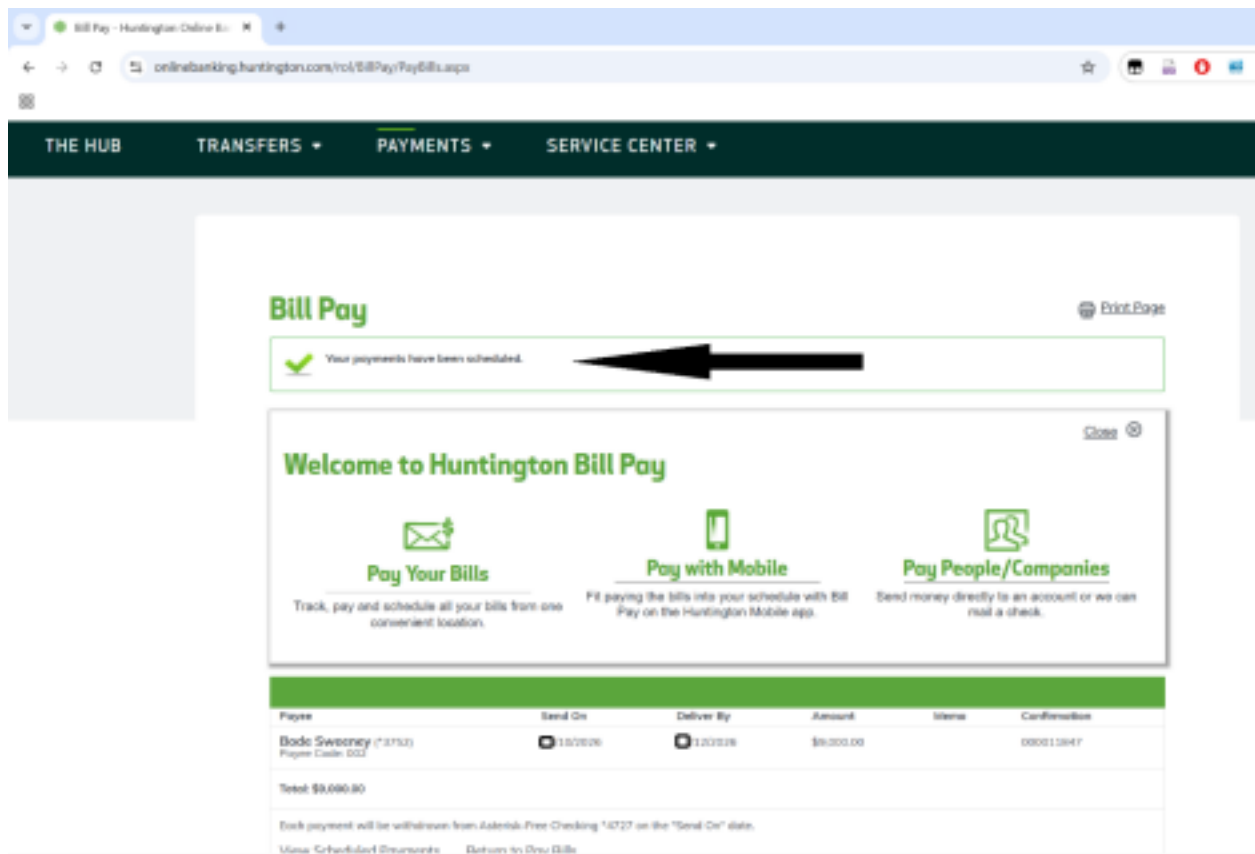

6. Don't send more than \$10,000 at a time, atleast whatever money the real owner loses, insurance will reimburse it for them.

7. Click on “**CONFIRM PAYMENTS**” for money to be sent out.

8. PAYMENT SENT. Your client/picker will receive the money in exactly 2 days.
