BANK LOG TO PHYSICAL GOLD METHOD

CONNECT WITH ME TO PURCHASE AMAZING UNRELEASED METHODS

TELEGRAM - https://t.me/cashtutspro

This is a simple tutorial where you learn how to buy gold online without using your own money. If you have a client, you can send it to his home address in the USA so he can sell/pawn it and send you your share.

If you don't have a client, you can create an account online with any of these virtual USA addresses and get it sent to you; these are shipment redirect companies: you order anything in the USA and deliver your product to these guys, and once they get your product, they reroute it to you anywhere in the world. So basically, you don't even need to be in the US to run this method

To run this, you need a bank log/hacked bank login that supports PLAID Connection. Before purchasing any random bank login, just go to this PLAID institution coverage page https://plaid.com/docs/institutions/ and check whether any particular bank allows connections. For example

I searched Chase, and you can see all sections are checkmarked, which means Chase Bank login would 100% work for this method. We only need transactions checkmarked; even if Auth and Balance are not YES-marked, that bank is still good.

We suggest https://blcklgs.io/ bank logs shop; they're legit and verified by us.

THE METHOD

I found this method back in February and made my share of money until this month, November; now I'm making it pubic to all cashtuts.pro members. Keep this method to yourself; do not share it with anyone. Make your own damn money by shutting your mouth. I have few more methods like which i keep them to myself if you like to get hands on them you know where to reach me. NOW LETS START

Gold update

Step 1: create an email that matches the name of the person you'll be sending the gold to.

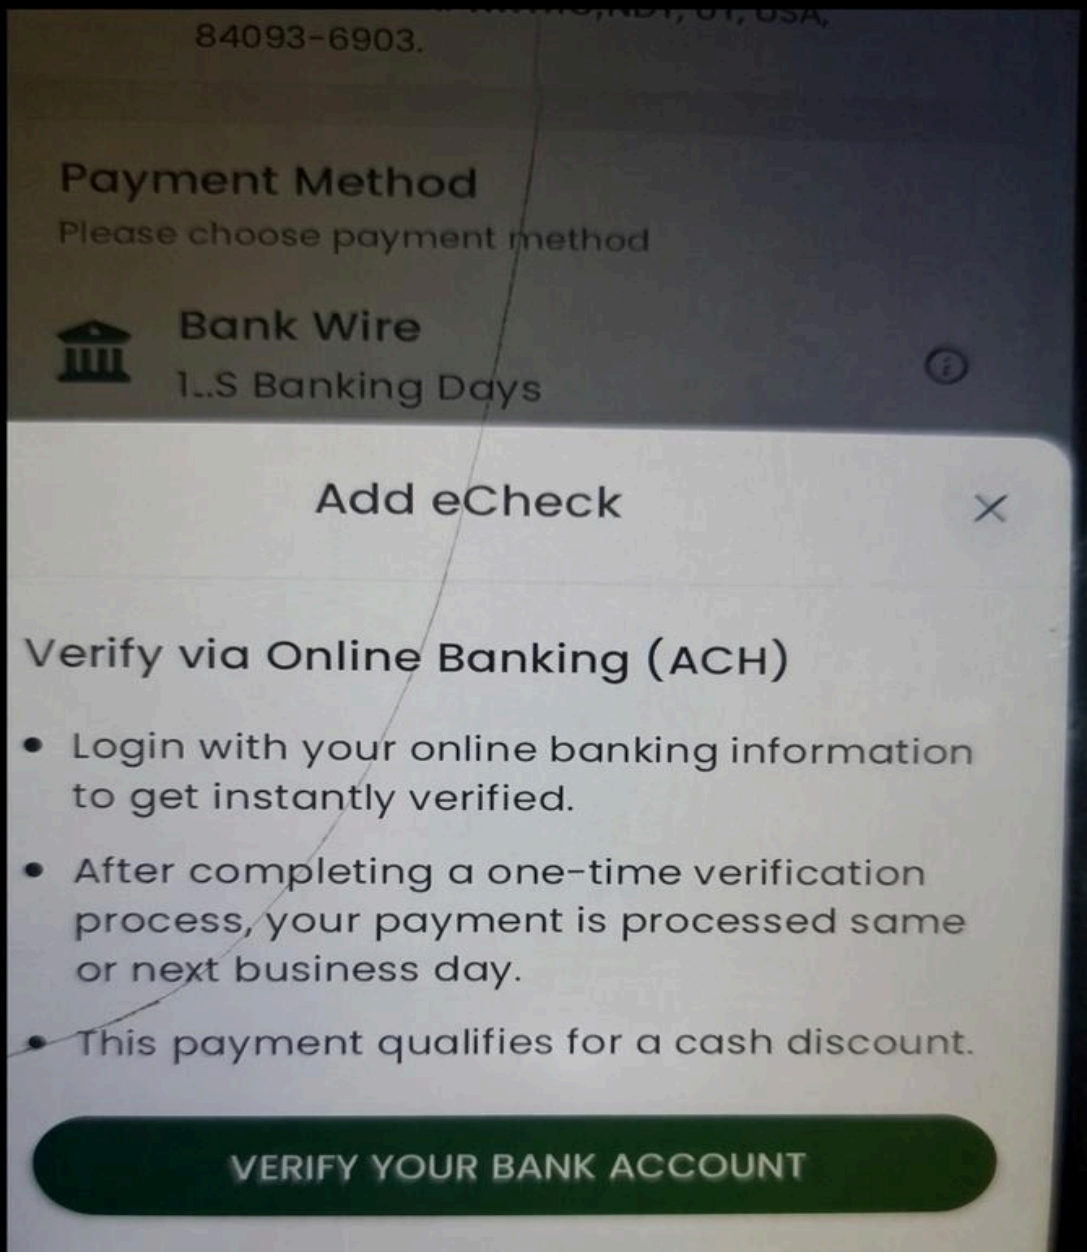

Buy bank login with Plaid and email access, as you would need otp from email. No need for phone otp of the bank login.

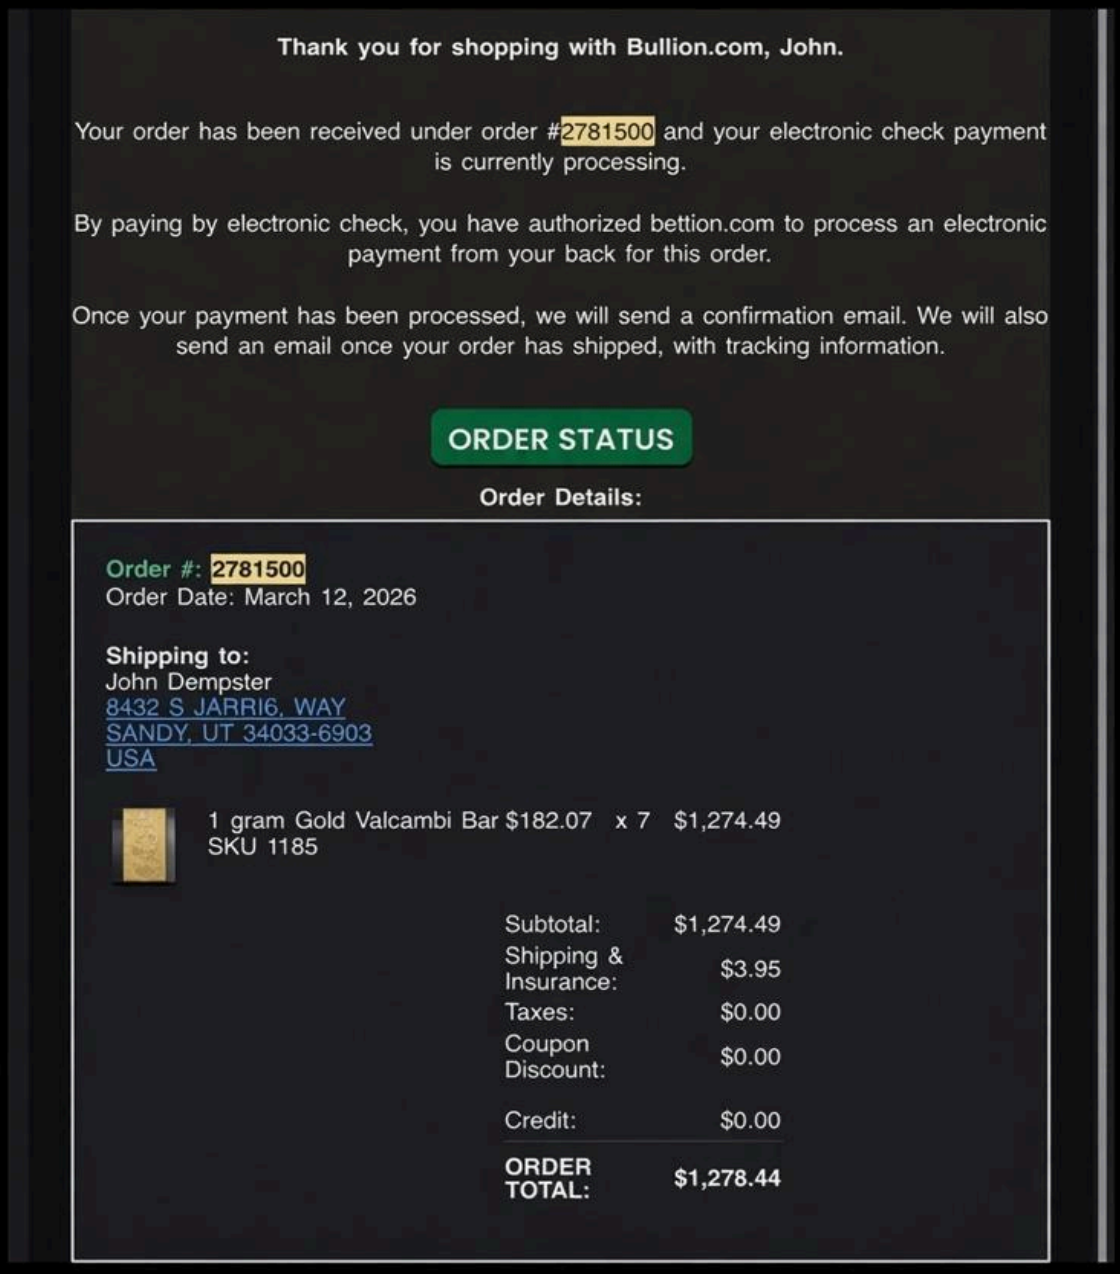

Step 5: put the correct address first name and last name

Step 6: Go to the bullion.com and select any amount of Gold you want to buy should not be more pfan $100,000 and add it to the cart. After adding it to cart, click on check out. They will ask you method for payment, click on echeck, then you'll see option to link the instant plaid log you want.

After linking the account, select the log as payment method the click on buy. They will send confirmation email before the day ends and tell you when the gold will be shipped it shouldn't be more than 7 business days

There's a way the bank owner never finds out his bank account was used to purchase gold for a few days, or until it gets delivered to you.
Before connecting the bank log at bullion and placing an order, pre-set up your floodcrm.net account. INVITE CODE - 953130 if the code does not work use this link which skips invite code http://www.floodcrm.net/?ref_id=953130

Before and After 1 Hour of connecting bank log plaid on bullion and placing the order send flood of emails calls and texts to bank owners email and number. Do this spam flood on bank owners email and phone you DUMBASS not yours LOL dont come asking me yO cAsHtuTs WhErE ShOuid i fLoOd LMAO LAME ASS. So the bank log owner simply ignores real emails calls and text from bank confirming transaction and by then he finds out your gold is in your lame ass hands.

IF FLOODCRM DOESNT LET YOU IN OR WORK PM ME I HAVE FEW OTHER FLOOD SERVICES BUT RN FLOODCRM IS BEST.
